CLAESSON KOIVISTO RUNE

2013

Tiles is a study in geometry and groundedness. A collection of tufted rugs in pure wool designed by Claesson Koivisto Rune, with precise patterns that echo the logic of ceramic tiles – geometric fields scaled for the floor. Available in three patterns, Block, Brick, and Slab, each form explores proportion and rhythm through surface and pile.

Block | 170x240 cm

Brick | 170x240 cm

Slab | 170x240 cm

# THE ART OF PERFECT RUG PLACEMENT

Rugs are very often the visual anchor of a space, serving the purpose of bonding together other design cues and furnishings as well as complementing paintwork or wallpaper choices. They also help define the floor plan and guide the placement of furniture.

## BEFORE PLACING, HERE ARE SOME QUESTIONS YOU SHOULD CONSIDER

- How do people move around in the room?
- How many items of furniture are in the room and where will they be placed in relation to the rug?
- How are the room's acoustics and how will the rug affect noise insulation?
- How will light, both natural and artificial, affect perception of the rug's color and structure?

## WITH TABLE AND CHAIRS

- Make sure the rug is of a scale that ensures all the chairs are still on the rug even when they are fully pulled out.
- To ensure this, we recommend a rug that is 50–60 cm larger than the table in both length and width.

## IN A BEDROOM

- When placing, focus on creating a unified look between bed and rug.
- Most of the rug should be under the bed, so we recommend choosing a rug that is at least 60 cm larger than the bed in both length and width.

200x300 cm

## AS PART OF A SOFAGROUP

- Ensure your rug is at least as wide as the sofa.
- Create a unified aesthetic by ensuring part of the rug is under the sofa.
- If the group includes armchairs, choose a rug that is large enough to ensure all four legs of each armchair stay on the rug.

# THE SECRET TO A LONG- LASTING RUG

## Care tips that work

All hand-tufted rugs retain their appearance and shape longer when dirt and stains are removed regularly. Light, solid-color rugs naturally require more frequent cleaning than darker, patterned rugs. Shaking or beating a hand-tufted rug subjects it to rough treatment that can damage the yarn, so vacuuming and airing the rug is recommended instead. For additional dirt removal, the rug can be turned upside down and carefully beaten on the reverse side to release loose dirt.

### REGULAR CARE ADVICE:

**Vacuum often** – Regular vacuuming removes loose dirt and dust and is the most environmentally friendly and economical method. For long-pile rugs, as well as rugs with bouclé or loop construction, avoid rotary brush nozzles, which can damage the yarn and twisted thread pairs. Vacuum in a single direction for best results. Daily vacuuming for a short initial period can help reduce excess fibers faster.

**Comb long-pile rya rugs** – To maintain appearance, comb the pile at regular intervals with a coarse-toothed comb or small wooden rake.

**Rotate the rug** – Regular rotation ensures even exposure to sunlight and wear.

**Shedding is normal** – Loose fibers naturally shed and do not affect the rug's quality.

**Cut loose yarns** – If threads protrude, trim them carefully with scissors rather than pulling to prevent damage.

### DEEP CLEANING ADVICE:

- Professional extraction cleaning on a flat surface is recommended.
- For sensitive rugs, including linen-based tufted rugs, use minimal water and tailor cleaning to the material and pile. Over-wetting can affect the appearance, so gentle, controlled cleaning is recommended.
- Ensure proper ventilation for drying.
- Do not machine wash or dry clean.
- Avoid harsh chemicals; use gentle, water-based cleaning solutions and patch-test first in an inconspicuous area.

### STAIN REMOVAL:

- Treat spills immediately to prevent permanent stains.
- Avoid rubbing or applying excessive pressure, which can deform or mat the pile.
- The faster you act to remove a stain, the greater your chances of successfully removing it.
- Blot gently and refer to Kasthall's stain guide for advice on specific stains.

# SUSTAINABILITY IN OUR HEART SINCE 1889

Sustainability and social responsibility have been woven into Kasthall's identity from the beginning.

## MAKING SUSTAINABLE CHOICES

Sustainability runs deep in the history of Kasthall. More than 130 years ago, our dependence on the nature around us and the support of the local community in the small village of Kinna, Sweden, established a foundation of responsibility that continues to guide us today. From the careful selection of certified raw materials to the precision of our manufacturing process and the well-being of the workers in our supply chain, we strive to minimize our impact at every stage.

We use only the finest linen and wool and our local production ensures every piece is made with care, avoiding excess and minimizing waste. By making rugs that last for generations, we reduce the need for replacements and preserve natural resources.

We create quality rugs that are not only beautiful and durable but also responsibly made. For us, sustainability is never a finished task, and we are always looking for ways to further reduce our impact and better serve our planet, our community, and our customers.

## SECOND LIFE

We wish to contribute to a world that consumes less and values quality products more, and we want to make it easier for our customers to increase the lifetime of Kasthall rugs. We will therefore strengthen our consumer communication on the impact of our products and provide guidance on what to do with a Kasthall rug if they no longer wish to keep it themselves. In our home market Sweden, Kasthall rugs are sought after items on auctions and second-hand interior platforms.

**BEAUTIFUL RUGS AND CARPETS FOR A LIFE WELL LIVED.
